

TESA

TRIALS OF EXCELLENCE IN SOUTHERN AFRICA

ANNOUNCEMENT

Dear TAGENDI PhD and MPhil Fellowship Applicants,

We would like to express our sincere appreciation to all those who applied for the PhD and MPhil fellowship program under the TAGENDI Gender Equity Round 2 project!

As previously communicated, the primary funder of the program—the UK Government in collaboration with EDCTP2—intends for the second round of fellowships to be implemented separately from the first. Due to some informed adjustments made in TAGENDI I, there has been a slight delay in the commencement of the selection process, which will also affect the timing of the results publication.

The revision of the master program is now complete. We are currently in the process of finalizing the financing agreement between the TESA project coordinator and the Financial Authority. In parallel, we are also organizing the selection committees, which will begin their work once the agreement is signed.

Please note that the process of selecting and publishing the results of the grants shall take place within the period of the signed agreement which we anticipate happening sooner.

Thank you for your patience and understanding. We will keep you updated and return with more news shortly!
